RedCloud appoints Sameer Jooma as general manager for SA

RedCloud Technology has announced the appointment of Sameer Jooma as general manager for South Africa. Jooma brings a wealth of experience in ecosystem development and will be responsible for accelerating the adoption of Red101, the world's first open commerce platform, and driving growth in Southern Africa. His current focus is on expanding the scope of Red101, which allows development for the next one billion retailers across emerging markets.
