

# Dismal Logo Designs

Inferior logo designs of professional soccer outfits in SA

Have a concern with the quality of work on logo designs within professional soccer teams in SA. Just take a look at [www.silverstars.co.za](http://www.silverstars.co.za) and [www.fcak.co.za](http://www.fcak.co.za), their logo designs are amateurish and ugly.

Have seen corporate companies re-designing their logos and wonder why such does not happen within professional soccer teams?

I'm not a graphic designer, however this always bothers me...
