

ITI Africa Summit 2012 focuses on infrastructure challenges in Africa

The 2nd Annual IT Infrastructure Africa Summit taking place from 12-13 July 2012 at the Westin Hotel in Cape Town, South Africa is hosted by international business-to-business conferencing company, Kinetic Events. The summit will focus on: IT infrastructure challenges facing the African IT industry preventing enterprises within the continent from reaching international standards of first world nations; reducing capital expenses through innovative workload and data consolidation without compromising performance or quality of IT infrastructure; and understanding the fundamental processes enables effective and productive storage and networking asset management.
