

The value of cultural integration - 6 Mar 2017

BY LOUISE MARSLAND

Collaboration, empathy, integration and tolerance all formed key notes in the overall message coming out of Design Indaba 2017, Africa's global inspiration showcase for the creative industries, held each year this time in Cape Town, South Africa. Bizcommunity.com fielded a strong team at Design Indaba 2017 and reported back on all the major presentations in our [special Design Indaba section](#) on our daily news site.

Global events have obviously had an impact, as most presentations dealt with tolerance and the value of cultural integration brought by migration, as outlined in my [overall trends report back](#) on Design Indaba this year. Follow the conversation at #DesignIndaba and on www.bizcommunity.com/designindaba.

Have a great week!

Louise Marsland
