

Dome's emergency clinic of international standard

Managed by Medical Management Consultants, the new fully-equipped Coca-Cola Dome medical clinic allows for advanced emergency treatment during events or exhibitions. With emergency vehicles on standby at the treatment area, the clinic will make all necessary arrangements for transfer to a higher care facility. Says Mike Lord, GM of The Coca-Cola Dome, "It places the venue as a front runner in South Africa in meeting the medical care needs at events. We are now fully compliant with the requirements of the Johannesburg Metropolitan Council and the proposed new events bill."
