

African Movie Channel launches iPad app

African Movie Channel (AMC) have officially launched its African Movie Channel iPad app, reportedly the first ever iPad app dedicated to On-Demand Nollywood and African films and TV series.

To watch AMC on iPad, viewers simply need to sign up for an account online at www.africanmoviechannel.com, download the African Movie Channel iPad app from the Apple store, login and start enjoying a wide selection of movies and TV episodes on-demand.

African Movie Channel also officially unveiled its long awaited On-Demand Roku channel, and its revamped On-Demand portal.

For only US\$5.00 a month, viewers have unlimited access to thousands of movies and TV episodes via all three apps. With one user account, viewers can watch On-Demand what they want, anywhere and at any time, on their iPad, mobile, online, and on TV through a Roku box. Viewers can also cancel their subscription at any time.

AMC On-Demand gets refreshed with at least seven movies every Friday.
