I wanted to be a lawyer, not just because I am good with words and could reason my way out of most situations, but also because I am passionate about justice.

▣ ***Give three pieces of advice for young people waiting to enter this industry***

1. Build solid relationships through networking & collaboration: People want to work with people that they know, like & trust.
2. Stay teachable and nimble: The industry is fast paced and ever changing, stay on top of trends, technologies and consumer behaviours. Continuous learning and adaptability is key.
3. Stay Grounded: You can easily get lost in the lights, having a community of people who keep you grounded and in check is so important.
