

Giant vuvuzela breaks Guinness World Records

It's official, Hyundai's giant vuvuzela on Cape Town's unfinished highway has broken the word record and has been confirmed by Guinness officials as being the world's biggest vuvuzela, measuring an epic 35 metres long and 5.5 metres in diameter.

"We are thrilled to be in the Guinness World Records, this has been an exciting project and an ideal platform to contribute to the excitement and gees around the world cup,"

commented Operations Director of Hyundai South Africa, Albrecht Grundel, during a photo session on Thursday 8 July in front of the giant vuvuzela.
