

## Survey on e-billing in SA

World Wide Worx, an independent advisor on mobile-online technology and marketing strategies, has launched a comprehensive survey on electronic bill presentation and payment, or "e-billing". The "E-billing in SA, 2002" survey will examine e-billing from two different angles: from the perspective of local customers' preferences and expectations; and from that of companies' plans to move to an e-billing system over the next few years. To participate in the 4-minute online e-billing survey, visit [www.statistics.co.za](http://www.statistics.co.za).
