

Franschhoek Bastille Festival to go virtual

Franschhoek's annual Bastille Festival is going virtual this year, with the organisers calling on the support of its members to showcase the valley through the lens of locals.

From 1 July to 10 July, participants will be able to virtually experience Franschhoek as locals do – foraging for mushrooms, horse riding amongst the vineyards, a sunrise sabrage, art and sipping superb wines, etc. Exclusive wine, restaurant, accommodation and retail offers will be revealed each day and will only be available for this event.

The countdown culminates on Saturday, 11 July, which would have been the day for the actual festival, with festivities planned to celebrate Franschhoek's French heritage.
