

Call for entries: Toyota Dream Car Art Contest

Children from all over the world are invited to share ideas about the future of mobility by drawing their dream cars and submitting their entries for the 12th annual Toyota Dream Car Art Contest before 1 March 2018.

The contest is aimed at encouraging children to explore their creativity as well as transport their imagination beyond our physical realm.

The Toyota Dream Car Art Contest is intended to create opportunities for children throughout the world to develop their interest in cars and help them feel the joy and importance of having a dream through drawing pictures of their dream cars. The contest was visualised by Toyota President and CEO Akio Toyoda, who wanted to create a platform to teach children to use the power of dreams and imagination as well as stimulate their interest in cars.

The competition is comprised of the National and the World Contest. The National Contest is held in each of the participating countries till March 2018. Local winners will be entered as representatives of their countries into the World Contest, which will be held in Japan in August.

Prizes

Contestants stand a chance to win the following awards for all three categories:

- First place: PS4 to the value of R7,000 and R8,000 cash
- Second place: PS4 to the value of R7,000
- Third place: Xbox One to the value of R5,000
- Fourth place: Tablet to the value of R3,000
- Fifth place: Makro voucher to the value of R2,000
