

Vodacom to lessen out-of-bundle prices

Vodacom is to decrease its out-of-bundle prices for all its customers by mid-October.

The out-of-bundle rate will drop by 50% for prepaid and top-up customers once the new 99c per megabyte tariff comes into effect on 15 October 2017.

Vodacom has also recently introduced other measures to encourage in-bundle selection and to minimise out-of-bundle usage.
