Leading perception management company, Manley Communications, is proud to announce their representation of a collaborative exhibition between longtime friends and two of South Africa's most distinguished internationally-acclaimed artists - Zwelethu Mthethwa and Louis Jansen van Vuuren.

Entitled 'Entre Nous / Between Ourselves / Pakathi Kwethu,' the exhibition is scheduled to open this November in association with coronation fund managers at new Cape Town art gallery, I-Art. According to Mthethwa, the theme of the exhibition focuses on 'technique as a subject matter.' It's a visual dialogue in a single space between Mthethwa and Jansen van Vuuren who have spent recent months corresponding about the direction in which art is moving and the great potential that exists in working on collaborative pieces.
