

Effective Use of Tech shortlist announced for Warc Media Awards 2019

A total of 18 shortlisted papers in the Effective Use of Tech category for Warc Media Awards 2020, which looks for the best communications that have effectively used or combined emerging platforms or technology in the media mix, contributing to the overall business success of the broader campaign.

The judging process is currently ongoing with an international panel of media planning experts, chaired by Isabel Massey, global media director, marketing, Diageo, taking part.

The shortlist is made up of a wide variety of sectors, including automotive, clothing and accessories, food, and toiletries and cosmetics. The Asia-Pacific region leads with 14 shortlisted papers, followed by EMEA with four.
