

Seether to headline at Cape Town Bike Festival

International rockers Seether will be the headline act at the Cape Town Bike Festival, which takes place at the Cape Town Stadium from 16 to 18 December, 2011, the organisers have announced.

Seether, formed in 1999 and South African in origin (originally known as Saron Gas) quickly gained notoriety in SA's rock market with their release, *Fragile*, which became one of the best-selling titles of the year, and saw Seether emerge as a top live act.

In a career that's spanned nearly a decade, the power trio of lead singer Shaun Morgan, bassist Dale Stewart and drummer John Humphrey have toured the globe on the strength of five Gold and Platinum-selling albums.

Additional SA acts

Additional bands and performers at the CTBF will include local sensations Locnville, Zebra & Giraffe, Good Luck, The Graham Watkins Project and Idols 2011 runner-up Mark Haze, as well as a special performance by international eurodance icon Haddaway.

[The Cape Town Bike Festival \(CTBF\)](#) combines the world of bikes with live entertainment in the form of international and local bands, product displays and a dirt bike extravaganza over the three-day event. The festival will attract not only the biking fraternity, but additional non-biking music fans, women, children and visitors from around the globe.

Get your tickets now at www.computicket.com or for three-day packages, go to www.capetownbikefestival.com.
