

Huawei MateBook B Series - landing soon

Issued by [Huawei Technologies](#)

17 Nov 2021

Leading ICT distributor, Pinnacle, recently announced the onboarding of the Huawei Consumer Business Group product stack to their portfolio. The addition of the Huawei Consumer Business Group has elevated Pinnacle's B2B consumer offering to the next level, creating quite a bit of excitement within their reseller base.

HUAWEI MateBook B Series

Ultra-Slim Metallic Unibody | 52 Wh Battery Capacity
TPM 2.0 Module | Supports SuperCharge™

distributed by
pinnacle

With Pinnacle set to officially launch this newly onboarded division to their customers during the month of November through strategically partnered events, the team also announced that they would be expecting their first shipment towards the end of November consisting of a few exciting products.

Huawei MateBook B3-410 and Huawei MateBook B3-510

Although similar in majority of the features, the two notebooks differ primarily in screen and body size. The MateBook B3-410 is a 14-inch IPS FHD resolution display supporting 180-degree movement and is feather light at 1.38kg's and ultra-slim metallic unibody, while the MateBook B3-510 boasts a 15.6-inch IPS FHD resolution display and comes in slightly heavier at 1.53kgs.

With the B-series notebooks specifically aimed at businesses, all the units are equipped with a built-in fingerprint reader conveniently positioned on the power button giving user seamless access to their device. With virtual meetings quickly becoming the norm, these units' possess a hidden 1 MP camera ensuring crystal clear display throughout.

PRE-ORDER

HUAWEI MateBook B Series
Ultra-Slim Metallic Unibody | 52 Wh Battery Capacity
TPM 2.0 Module | Supports SuperCharge™

Accommodating users on all interfaces, both units have one USB-A 3.0 port, one USB-C port which supports charging and data transmission, one HDMI port, one 3.5mm audio jack connection, and one mini-RJ-45. As for a USB-A 2.0 port, the B3-410 has one, while the B3-510 has two. The B series notebooks are fully upgradeable to Windows 11 thanks to the TPM 2.0 module present on the units and supports SuperCharge™ for a selection of Huawei phones. Due to the large-capacity battery of up to 56 Wh, users can enjoy hours of uninterrupted productivity.
