Gerd Janson will play the closing set. The German artist is known as the quintessential DJ's DJ, finding the tracks that get the true aficionados excited and on their feet. From running his label to writing as a music journalist to playing to appreciative crowds around the world, Gerd Janson is magical to watch and will leave festival attendees thrilled.

South Africa will also be represented on CTEMF's programme, with a long list of local pioneers and innovators of the local music scene, including Aux Gawd, Stiff Pap, and DWSON. A series of workshops will also precede the festival.
