

aha Kathu Hotel revitalised with fresh new look

aha Kathu Hotel, Northern Cape, temporarily closed from 4 February 2019 to 31 May 2019, has reopened after a R6.9m refurbishment. The extensive makeover project included a complete overhaul to every room, bathroom and public facility on the premises, and the Hotel team is now welcoming guests, new and old, to the revitalised property.

The aha Kathu Hotel is a comfortable and appealing bed and breakfast option in the heart of the Northern Cape Province. This affordable hotel is in the heart of Kathu's business hub and main shopping destinations. Its central location makes it a convenient choice for guests, who can get to their business or leisure destinations nearby with ease.

Enhanced hotel features

The refurbishment has added touches like modern furniture and light fixtures, USB ports in the rooms for easy charging of devices and new mirrors. Hotel suites now also include walk-in cupboards and stylish contemporary décor, with every room receiving a complete tech overhaul including upgraded TV sets, faster, more efficient uncapped Wi-Fi access and new lockset handles.

aha Hotels & Lodges CEO, Graeme Edmond says: "The hotel has always had a contemporary and comfortable feel to it. We are confident that we have maintained that while injecting some fresh new energy and enhanced features into the environment. We are really looking forward to wowing our guests with even more memorable hotel experience in this very special part of the Northern Cape."

The renovated interior area of the restaurant accommodates 36 guests and the outside pool area accommodates nine in its luxurious setting. There is also a breakfast area, which serves delicious breakfasts, and brand-new bar and pause area furniture has helped create the ideal spaces for a bit of relaxation after a long day.
