Elon Musk has announced that the blocking feature on Twitter (now X) will be removed because "it does not make sense."

He said users will still be able to block people from directly messaging them.

This is one of Musk's latest changes to the platform after purchasing it for \$44bn last year.

Changes

“ Block is going to be deleted as a “feature”, except for DMs— Elon Musk (@elonmusk) [August 18, 2023](#) ”

Recently he changed the famous name and blue bird logo to X.

“ Pretty fun blocking people who complain that blocking is going away. How does the medicine taste? 🤔🤔🤔🤔

Currently when users choose to block someone, it stops the appearance of that account's posts in the blocker's timeline
