

Banff International Mountain Film Festival comes to SA cinemas

For the eleventh year, Cape Union Mart proudly hosts the screening of the 2016 World Tour films of the annual Banff International Mountain Film Festival at Ster-Kinekor cinemas in Cape Town, Durban, Johannesburg, Port Elizabeth and Pretoria.

This year's World Tour features the best mountain films, highlighting filmmaking talent from the world over to an audience that spans the globe. Eleven award winning and audience-nominated World Tour films, selected from hundreds of Festival submissions, will be shown at each World Tour screening in South Africa. They include a mix of topics and styles that are entertaining, inspiring and thought provoking. These films range in duration from the intense-action packed, three-minute surfing video *Living Rivers - Surf* to the 40-minute documentary film *A line across the sky*, winner of the Best Climbing Film category.

South African audiences are also treated to the screening of an additional five-minute film: the winning submission from the Cape Union Mart Adventure Film Challenge. This annual film competition encourages South African filmmakers and athletes to capture and celebrate local outdoor and adventure culture.
